- May be necessary to take additional credits to attain the minimum 120 credits required for graduation.
- ___
- ___
- ___

* These are **required** support courses which may also be used to satisfy the indicated Distribution requirements. A student may choose to fulfill Distribution requirements with courses other than the ones listed, but these listed courses must still be taken.

Note: If a course is used to satisfy two or more requirements, (for example, a support course and a distribution elective), the credits are counted in only one place.

Using a course to satisfy more than one requirement does **not** reduce the total credits required for graduation.

+ MAT 120 Mathematics for the Liberal Arts recommended.

† Because of the overlap in content, students who receive credit for PSY 218 will not receive credit for PSY 251 or PSY 252; students who receive credit for PSY 251 or PSY 252, will not receive credit for PSY 218.

Exceptions in the timing of courses will be made for transfer students.

Total minimum credits for graduation: 120

Effective: 9/10
