	minor selection.						¶ PI	ROFESSIONAL SKILLS (12 credits total)		
						Required Minor: (15-18 credits total)				
							1			

- ▼ Students may choose to use support courses to satisfy general education categories, but may not be required to do so. **Note:** If a course is used to satisfy two or more requirements (for example, a support course and Scientific Reasoning requirement), the credits are counted in only one place. Using a course to satisfy more than one requirement does **not** reduce the credit total required for graduation.
- Courses used to satisfy the general education requirements of the university must be taken from a minimum of six different academic disciplines. First Year Seminar and Level I Written Communications courses are exempt from this restriction. Courses may not be used to fulfill both major discipline and general education requirements.
- # These Scientific Reasoning General Education Category courses do not have to be a sequence or be from the same discipline.
- Level II and Level III Written Communications Courses may be used to satisfy requirements anywhere else in a student's program of study where they may apply. The credits are counted only in one area.

To satisfy the Professional Skills requirement, choose any two of the following course groups:

- a. Elementary foreign language 101-102
- b. Intermediate foreign language 201-202
- c. Six credits in courses in statistics in consultation with the academic advisor
- d. Six credits in courses in computer-based learning in consultation with the academic advisor
- e. ECO 201 & ECO 202
- f. PHL 125 and a three-credit course in ethics, in consultation with the academic advisor

♦ COMPETENCIES - TO BE COMPLETED WITHIN THE FIRST 30 CREDITS
