Students may choose to use support courses to satisfy general education categories, but may not be required to do so. Note: If a course is used to satisfy two or more requirements (for example, a support course and Scientific Reasoning requirement), the credits are counted in only one place. Using a course to satisfy more than one requirement does not reduce the credit total required for graduation.

- Courses used to satisfy the general education requirements of the university must be taken from a minimum of six different academic disciplines. First Year Seminar and Level I Written Communications courses are exempt from this restriction. Courses may not be used to fulfill both major discipline and general education requirements.
- # These Scientific Reasoning General Education Category courses do not have to be a sequence or be from the same discipline.
- Level II, Level III, Written Communications and Diversity, Power Dynamics and Social Justice Courses may be used to satisfy requirements anywhere else in a student's program of study where they may apply. The credits are counted only in one area.
- **¶** Number of credits determined by choices made in Additional Major/Concentration/Minor section.
- * An alternative course may be selected in consultation with the department chairperson.

All course selections should clearly fit into one and only one Focus Option area and should exhibit substantial course content that is based on location (options 1-6) or on theme (options 7-9). All courses must be above the introductory level and no more than two courses from any one department.
COMPETENCIES - TO BE COMPLETED WITHIN THE FIRST 30 CREDITS
GENERAL EDUCATION CATEGORIES - TO BE COMPLETED WITHIN THE FIRST 30 CREDITS

Exceptions in the timing of courses will be made for transfer students
