♥ Students may choose to use support courses to satisfy general education categories, but may not be required to do so. **Note:** If a course is used to satisfy two or more requirements (for example, a support course and Scientific Reasoning requirement), the credits are counted in only one place. Using a course to satisfy more than one requirement does **not** reduce the credit total required for graduation.

- ♣ Courses used to satisfy the general education requirements of the university must be taken from a minimum of six different academic disciplines. First Year Seminar and Level I Written Communications courses are exempt from this restriction. Courses may not be used to fulfill both major discipline and general education requirements.
- # These Scientific Reasoning General Education Category courses do not have to be a sequence or be from the same discipline.
- ‡ Level II, Level III Written Communications and Diversity, Power Dynamics and Social Justice Courses may be used to satisfy requirements anywhere else in a student's program of study where they may apply. The credits are counted only in one area.
- ◇ Must complete 2 or 3 Major Clusters for a total of 24-27 credits. If 2 clusters: 12 credits/cluster. If 3 clusters 9 credits/cluster. Courses for major clusters will be selected in consultation with an advisor. Each cluster must have a specific focus (thematic or disciplinary)
- ¶ Students are strongly encouraged to complete a minor.
- † May be necessary to take additional credits to attain the minimum 120 credits required for graduation.
